

## **DOMESTIC INTERSTATE DIRECT-DIAL RATES INTERNATIONAL DIRECT-DIAL RATES**

RGTS offers several different rate plans for direct-dialed domestic interstate calls, which are described on pages 2 through 5, below.

RGTS's international direct-dial rates are described on page 6, below, and RGTS's RockRates international direct dial-rates, are listed beginning on page 7, below.

## STANDARD DIRECT-DIAL DOMESTIC INTERSTATE RATES

The standard RGTS rates for direct-dial domestic interstate calls is based on the tariffed rates of a major long-distance telephone carrier, and the specific carrier is identified on the applicable RGTS customer's Service Order. The major telephone carrier's rates may be discounted, depending on the individual customer's call volumes, term commitments, and other special circumstances; any negotiated discount will be set forth on the applicable Service Order.

RGTS may also negotiate specific rates with a customer, on an individual case basis, without reference to a major long-distance telephone carrier's tariffed rates.

Duration of each call is recorded in whole minutes, with partial minutes rounded up to the next whole minutes. Calls are timed beginning when a number is dialed and an outgoing trunk line is seized, and ending when RGTS receives a signal that the seized trunk line has been released.

## UNLIMITED DIRECT-DIAL DOMESTIC INTERSTATE CALLING

RGTS offers unlimited untimed domestic local and interstate long-distance calling for a single monthly price, provided that the customer subscribes to this unlimited untimed feature for all of its telephone lines, and subscribes to RGTS's other regulated voice services. The customer is charged a flat monthly rate for all of its voice services, and of that total fee (which will vary depending on the components of the total RGTS service offering), \$4.55 is allocated as the price for the unlimited untimed domestic interstate long distance calling feature.

Unlimited untimed calling is subject to certain restrictions set forth in RGTS's Master Terms and Conditions, and a violation of these restrictions can result in, among other things, termination of unlimited untimed calling features in whole or in part. Please refer to the Master Terms and Conditions for more information.

## DOMESTIC ROCKRATES

The RockRates rate for domestic calling is \$0.055 per minute for all direct-dialed domestic interstate calls.

This rate is effective from and after July 1, 2008, and is applicable only to Service Orders that specify RockRates as the basis for charging for interstate calls.

This rate may be changed, and/or discontinued at any time by RGTS. Duration of each call is recorded in whole minutes, with partial minutes rounded up to the next whole minutes. Calls are timed beginning when a number is dialed and an outgoing trunk line is seized, and ending when RGTS receives a signal that the seized trunk line has been released.

This rate may be discountable to certain customers, depending upon call volumes, term commitments and other special circumstances.

## ROCKVOICE DOMESTIC STANDARD AND ENHANCED RATES

RockVoice is a different kind of service, provided by Rockefeller Group Communications, Inc., which uses Voice over Internet Protocol (VoIP) transmission. The Standard RockVoice rate is \$39.99 per line per month, and the Enhanced RockVoice rate is \$42.99 per month. Both the Standard and Enhanced RockVoice plans include unlimited untimed domestic local and interstate long-distance calling.

The RockVoice rates are effective from and after November 1, 2009, and are applicable only to Service Orders that specify RockVoice rates (standard or enhanced).

Note about international calls with RockVoice: Both the Standard and Enhanced RockVoice services include direct-dial international calling at the international RockRates specified starting on page 7, below. In addition, the Enhanced RockVoice service includes unlimited direct-dial international landline-terminating calling to numbers in the United Kingdom, Germany, France, Switzerland, Hong Kong, and Japan. Other countries may be substituted at the discretion of RGTS, based upon subscriber request, call volume, and other applicable circumstances. International calling for Rockefeller Group Communications, Inc. may be provided by other RGTS affiliates.

The Standard and the Enhanced RockVoice rates and features may be changed, and/or discontinued in whole or in part at any time by RGTS, and they may be discountable and otherwise negotiable to certain customers, depending upon call volumes, term commitments and other special circumstances. Unlimited calling is subject to certain restrictions set forth in RGTS's Master Terms and Conditions, and a violation of these restrictions can result in, among other things, termination of unlimited calling features in whole or in part. Please refer to the Master Terms and Conditions for more information.

## INTERNATIONAL DIRECT-DIAL RATES

The standard RGTS rates for direct-dial international calls is based on the tariffed rates of a major international telephone carrier, and the specific carrier is identified on the applicable RGTS customer's Service Order. The telephone carrier's rates may be discounted, depending on the individual customer's call volumes, term commitments, and other special circumstances; any negotiated discount will be set forth on the applicable Service Order. Calls terminating on mobile and other wireless devices may be subject to higher rates than calls terminating on landlines, in accordance with the applicable telephone carrier's tariffed rates.

RGTS may also negotiate specific rates with a customer, on an individual case basis, without reference to a major telephone carrier's tariffed rates.

Duration of each call is recorded in whole minutes, with partial minutes rounded up to the next whole minutes. Calls are timed beginning when a number is dialed and an outgoing trunk line is seized, and ending when RGTS receives a signal that the seized trunk line has been released.

## ROCKRATES INTERNATIONAL DIRECT-DIAL RATES

These rates are the RGTS customer international direct-dial RockRates per minute, effective from and after July 1, 2008, and applicable only to Service Orders that specify RockRates as the basis for charging for international calls. These rates may be changed, and/or discontinued at any time by RGTS. Rate Per Minute is for calls terminating on landlines only.

Mobile Rates are rates per minute for calls terminating on mobile and other wireless devices. If no Mobile Rate is specified for a destination, all calls to that destination will be charged at the listed Rate Per Minute.

These rates may be discountable to certain customers, depending upon call volumes, term commitments, and other special circumstances.

Duration of each call is recorded in whole minutes, with partial minutes rounded up to the next whole minutes. Calls are timed beginning when a number is dialed and an outgoing trunk line is seized, and ending when RGTS receives a signal that the seized trunk line has been released.

Subscribers to RockVoice Enhanced Rates have unlimited direct-dial international landline-terminating calling to numbers in certain countries; see page 5, above, for more information.
